Stone Habitat

Project Planning Worksheet

Name: _____
Phone: _____
Email: _____
Stone Color: _____
Edge Type: _____

This worksheet should help you determine the initial measurement of your stone project and help us to provide you with an estimate. Please fill out and return either in person or via email to your nearest Stone Habitat location. Someone will contact you within 24 hours.

Instructions: Provide a sketch of your countertops in the grid below. Divide your drawing into simple rectangles and squares by sectioning it with the letters, A, B, C, etc. Be sure to include any islands, bar tops, peninsulas and backsplashes, labeling them as separate sections.

Measure each countertop section, record the dimensions, and calculate the area for each section. Add and divide the sections by 144 to calculate the total square footage.

Common edge profiles are illustrated for your convenience. Be sure to ask for more options when you visit our showroom.

Countertop Sections					
	Length (in.)	x	Depth (in.)	=	Area (in.)
A		x		=	
B		x		=	
C		x		=	
D		x		=	
E		x		=	
F		x		=	
G		x		=	
H		x		=	
				Total Square inches	
				÷	144
				Total Sq Ft	

COMMON EDGE PROFILES			
Straight Edge	1/2 Bullnose	DuPont	Ogee Bull
1/4 Bevel	Full Bullnose	Flat Ogee	Triple Pencil
